October 9, 2020

Hanover Area Community:

Due to the recent events within our community health, the Hanover Area School District will be returning to the virtual format of our hybrid model. This return will optimize student & staff safety, by assuring controlled environments, yet allowing our current positivity rates to subside.

In addition, we will be changing our current “yellow” schedule status, back to “red.” Schedules will revert to our beginning-of-the-year plan. All information regarding class times/schedules, can be found on our website. www.hanoverarea.org.

Moreover, district administration will continue to monitor our community health status. We are hopeful of a student-return to school in the near future; however, we will remain 100% online for the remainder of October. All lunch distribution sites will remain operational, every Monday & Wednesday. In addition, students will continue to be transported to our Career & Technology Center.

Finally, we are working diligently with the Department of Health, closely monitoring our district’s community health. We will provide weekly status updates while approaching our target date. Stay safe!
